

GreenSEO just killed 21 tonnes of CO2!

GreenSEO have just become climate positive by saving the environment from 21 tonnes of CO2 and helped to fund the best sustainability and CO2 reducing projects in developing countries. This equals the climate effect of more than 190 flights from Copenhagen to London – and you have totally removed more than your CO2 footprint.

Welcome to the gang of climate guerrillas
and thank you for keeping the world cooler and cleaner!

GreenSEO
